

**Radiation Safety Office  
Washington University  
Authorized User Request to Add a Radiation Worker to Existing RAM Permit(s)**

1. Worker Name	2. Employee ID #	3. Gender <input type="checkbox"/> M <input type="checkbox"/> F
4. Authorized User (AU) Name	5. AU Permit(s) to be added to	

Note: This form is not needed for a prospective AU to take the Radiation Safety or PET Exam. It is intended as a way for existing Authorized Users or their Designated Lab/Authorization Contacts to add radiation workers to their permit(s). This may also be done online via WUSTL Key in our MyRad system at:  
<https://radsafety.wustl.edu/myrad/>

- Worker will work with PET Isotopes
- Worker instructed by Authorized User or designee on laboratory safety, radiation safety and lab/protocol specific procedures
- I approve and accept responsibility for this individual to handle RAM under my permit(s) listed above

Authorized User or Designated Contact Signature: \_\_\_\_\_

Date: \_\_\_\_\_

**OPTIONAL:**

Designated Radiation Safety Lab/Authorization Contacts are permitted to make this request for addition of a radiation worker on behalf of the Authorized User. If you would like to add an existing radiation worker as your Designated Contact, or change your existing Designated Contact, please provide the information below. You may also make or change this designation at any time by contacting Radiation Safety at [radsafety@wustl.edu](mailto:radsafety@wustl.edu).
